

It was an amazing experience and the route we chose crossed beautiful, different landscapes.

The organization was very good and we really enjoyed to spend time with our guide Alex and his "dream team". They were very helpful.

The food was delicious every day.

However it would have been nice to stay a little bit when we arrived at Newka gate to take a group picture with the porters and the whole team. Also to rest and maybe to say "goodbye" to everybody. The "end-end" was the rush.

The equipment (tent) was good but maybe you should provide a better equipment list for our material: what to bring, what we need everyday, some tips.

We will keep ~~it~~ a wonderful unforgettable souvenir of this trip in Kilimanjaro. Thanks to all of you! We would recommend Sevez Tours and Alex to our friends.
